EDUCATION

Drew University Madison, New Jersey
Master of Science in Data Science, GPA 3.9 August 2026

Asian University for Women Chittagong, Bangladesh
Bachelor of Arts in Economics, CGPA 3.63 May 2016
Minor in Mathematics and Asian Studies
Honors and Awards: 95% Scholarship Recipient

PROJECTS

Drew University Madison, New Jersey
Predicting Emergency Department Demand May 2026 - August 2026

- Integrated SPARCS, Census ACS, weather, and geographic data into a 1,536-row county-quarter panel covering 57 New York facility counties (2018-2024).
- Engineered and selected 20 features; evaluated XGBoost, Random Forest, and Ridge with rolling validation and selected previous-quarter persistence (3.36% WAPE on the 2024 holdout).
- Deployed a Flask web app on Render for county-level next-quarter forecasts supporting staffing and capacity planning. [Project Page](#)

TMDB Movie Recommender August 2026

- Built a content-based recommender for 5,000 TMDB movies using TF-IDF and cosine similarity; 90% of top-10 recommendations shared at least one genre.
- Deployed an interactive Streamlit app on Render with movie search, posters, similarity scores, and adjustable recommendations. [Project Page](#)

Tesla EV Adoption April 2025

- Analyzed 235k+ EV records in Python (Polars, Plotly) to compare adoption trends across brands.

EXPERIENCE

CosmicVision Company Ho Chi Minh, Vietnam
Lookdev/Lighting Artist March 2021 – July 2024

- Developed 3D assets (modeling, texturing, and look development) based on concept art and references.
- Trained new employees in workflows and Maya tools, and recognized as the Most Interesting Employee of the Year 2021.

BadClay Studio Ho Chi Minh, Vietnam
Project Manager February 2018 – March 2021

- Managed cross-functional teams (asset creation, VFX, lighting, production, and animation), overseeing schedules and daily tasks.
- Served as the primary point of contact for clients, preparing budget proposals and reviewing feedback.
- Oversaw post-production for an episode of Sweet Home, a top Korean zombie series, and received the Best Producer of the Year 2020.

SKILLS

Technical

Python | SQL | Pandas | NumPy | Polars | MySQL | Scikit-learn | XGBoost | Flask | Streamlit | Power BI | Tableau | Plotly | Excel | Git | GitHub | Jupyter Notebook | Quarto | VS Code

Data & Analytics

Data Cleaning | EDA | Forecasting | Statistical Modeling | Machine Learning | Dashboard Development
